Guru Nanak Dev University — Amritsar, Punjab Bachelor of Computer Applications (BCA) 07/2027

Courses/Certifications

Full Stack Web Development Course from Udemy Certificate Link

Major Projects

Real-time Chat Application

GitHub Link

Description: Developed a dynamic real-time chat application using Next.js for the frontend and Node.js with Socket.io for the backend. Users can create profiles, send messages, and participate in group chats. Implemented features such as message notifications and user search.

Tech Stack: Next.js, Redis, Socket.io, Vercel, Express, TypeScript, Tailwind

Food Delivery App

GitHub Link

Description: Developed a comprehensive food delivery app using Next.js, React, and Node.js. The app

allows users to browse menus, place orders, and make secure payments. Implemented a RESTful API for efficient data management and integration with third-party services.

Tech Stack: MERN stack, Next.js, Vercel, TypeScript, Tailwind

Campus Connect

GitHub Link

Description: Developed a comprehensive online platform to streamline event organization and student engagement on college campuses.

Key Features:

- Event Management: Enabled event organizers to create, promote, and manage events efficiently.
- Student Engagement: Facilitated easy discovery and participation in campus events for students.
- Sponsor Partnerships: Established a platform for sponsors to connect with event organizers and reach target audiences.

Impact: Successfully fostered a more vibrant campus culture, increased event attendance, and created mutually beneficial partnerships between event organizers, sponsors, and students.

Tech Stack: MERN stack, Next.js, Vercel, TypeScript, Tailwind
